

SYSTEM AND METHOD FOR COMMUNICATION AND PROCESSING OF LEGAL  
DOCUMENT BASED ON GEOGRAPHIC AREA

ABSTRACT OF THE DISCLOSURE

A legal document processing system and method for processing  
5 legal documents between entities that use legal documents.  
The system includes a hub system for receiving legal  
documents from one entity and communicating them to another  
entity. The invention also includes a system and method for  
setting a geographic area within which a legal document will  
10 be delivered. The invention may also set the type of actor  
entity within the geographic area.
